OUR STORY

Belle&George was born from a love for materials, for craftsmanship, for a certain art of living.

In Vienna, Isabelle and George Castaing-Soulier envisioned a home where every piece holds meaning — from in-house creations to the discoveries of European artisans who share their values.

Their selection reflects a passion for craftsmanship, the beauty of imperfection, and the joy of well-made work. Belle&George embodies a simple, vibrant elegance, an inspiring alternative to standardized design.

A home that's slightly offbeat, deeply human

OUR VALUES

DESIGN FOR ALL

We believe good design should be accessible, timeless, and made to be lived with every day. A home becomes meaningful when it reflects the people who live in it, through a thoughtful mix of objects, materials, and personal stories. Design for all means creating spaces that feel authentic, welcoming, and uniquely your own.

LA BEAUTÉ DU VRAI

We are inspired by honest materials such as solid wood, natural stone, ceramics, and linen, allowing them to age beautifully over time. We believe true beauty comes from authenticity rather than imitation, and from objects that carry character instead of following trends. Spaces become timeless when they embrace real materials, thoughtful craftsmanship, and the stories that naturally unfold around them.

PRODUCED IN EUROPE

Every piece begins with a commitment to European craftsmanship, local production, and responsible manufacturing. We work closely with skilled artisans and carefully selected materials to ensure quality, durability, and attention to detail. By keeping our process rooted in Europe, we celebrate traditional know-how while creating furniture designed for modern living.

OUR TABLES COLLECTION ANTIBES

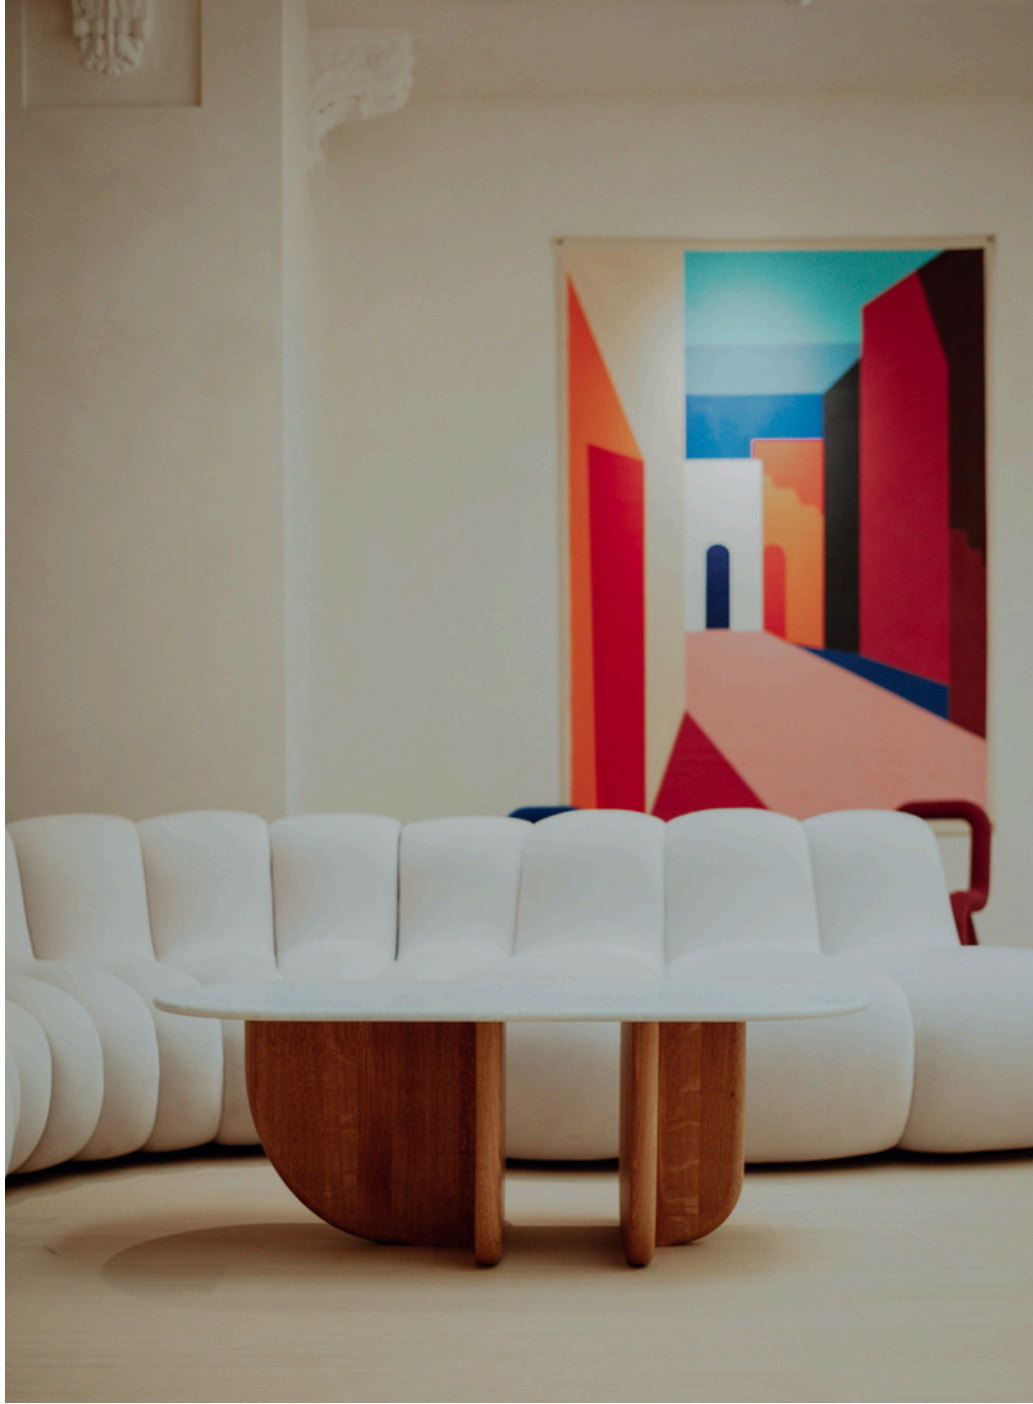

“Antibes” by Belle & George is a collection of sculptural tables crafted from solid wood and natural stone, inspired by the warm, gentle landscapes of southern France.

Created by interior designer Isabelle, the Antibes collection, named after her childhood hometown, captures the essence of the South of France: warm, natural, and effortless, drawing inspiration from the landscapes where she grew up.

Each table combines solid wood and natural stone in a simple, honest way, creating depth while maintaining a light and balanced presence. Each piece is handcrafted in Lower Austria, using high-quality, locally sourced materials.

Designed to integrate effortlessly into a variety of interiors, the tables bring a quiet, natural character to any space.
